Leader in Biomolecular Solutions for Life Science

p53 Rabbit pAb

Catalog No.: A5761 25 Publications

Basic Information

Observed MW

53kDa

Calculated MW

44kDa

Category

Polyclonal Antibody

Applications

WB,IP,ELISA

Cross-Reactivity

Human

Background

This gene encodes a tumor suppressor protein containing transcriptional activation, DNA binding, and oligomerization domains. The encoded protein responds to diverse cellular stresses to regulate expression of target genes, thereby inducing cell cycle arrest, apoptosis, senescence, DNA repair, or changes in metabolism. Mutations in this gene are associated with a variety of human cancers, including hereditary cancers such as Li-Fraumeni syndrome. Alternative splicing of this gene and the use of alternate promoters result in multiple transcript variants and isoforms. Additional isoforms have also been shown to result from the use of alternate translation initiation codons from identical transcript variants (PMIDs: 12032546, 20937277).

Recommended Dilutions

1:3000 - 1:6000 **WB**

ΙP 0.5μg-4μg antibody for 200µg-400µg extracts of

whole cells

Immunogen Information

Gene ID Swiss Prot 7157 P04637

Immunogen

A synthetic peptide corresponding to a sequence within amino acids 218-390 of human p53 (NP 035770.2).

Synonyms

P53; BCC7; LFS1; BMFS5; TRP53; p53

Product Information

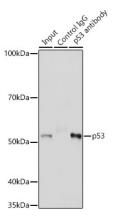

Purification Source Isotype Rabbit IgG Affinity purification

Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.01% thimerosal,50% glycerol,pH7.3.

Validation Data

Immunoprecipitation analysis of 200 μ g extracts of U-251MG cells using 3 μ g p53 antibody (A5761). Western blot was performed from the immunoprecipitate using p53 antibody (A5761) at a dilution of 1:1000.
