Background

This kit is designed to enrich deubiquitinating enzymes in crude or partially purified cell/tissue extracts, followed by identification using immunoblotting or mass spectrometry.

Basic Information

Description

Bio-Activity

Storage

This product is stable at $\leq -70^{\circ}\text{C}$ for up to 6 months from the date of receipt.
For optimal storage, aliquot into smaller quantities after centrifugation and store at recommended temperature.

Avoid repeated freeze/thaw cycles.
