

# Ubiquitin Rabbit pAb

Catalog No.: A0162 **9 Publications**

## Basic Information

**Catalog No.**

A0162

**Observed MW**

26kDa/37kDa/60kDa/80kDa/115kDa

**Calculated MW**

25kDa

**Category**

Primary antibody

**Applications**

WB

**Cross-Reactivity**

Human, Mouse

## Recommended Dilutions

**WB** 1:1000 - 1:2000

## Background

This gene encodes ubiquitin, one of the most conserved proteins known. Ubiquitin has a major role in targeting cellular proteins for degradation by the 26S proteasome. It is also involved in the maintenance of chromatin structure, the regulation of gene expression, and the stress response. Ubiquitin is synthesized as a precursor protein consisting of either polyubiquitin chains or a single ubiquitin moiety fused to an unrelated protein. This gene consists of three direct repeats of the ubiquitin coding sequence with no spacer sequence. Consequently, the protein is expressed as a polyubiquitin precursor with a final amino acid after the last repeat. An aberrant form of this protein has been detected in patients with Alzheimer's disease and Down syndrome. Pseudogenes of this gene are located on chromosomes 1, 2, 13, and 17. Alternative splicing results in multiple transcript variants.

## Immunogen Information

**Gene ID**

7314

**Swiss Prot**

P0CG47

**Immunogen**

A synthetic peptide of human Ubiquitin

**Synonyms**

HEL-S-50;Ubiquitin;UBB

## Contact

 | [www.abclonal.com](http://www.abclonal.com)

## Product Information

**Source**

Rabbit

**Isotype**

IgG

**Purification**

Affinity purification

**Storage**

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH 7.3.

## Validation Data

---

Western blot analysis of extracts of various cell lines, using Ubiquitin pAb (A0162) at 1:3000 dilution.  
Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) (AS014) at 1:10000 dilution.  
Lysates/proteins: 25ug per lane.  
Blocking buffer: 3% nonfat dry milk in TBST.  
Detection: ECL Enhanced Kit (RM00021).  
Exposure time: 90s.
