

Caspase-10 Rabbit pAb

Catalog No.: A0169

Basic Information

Catalog No.

A0169

Observed MW

Refer to figures

Calculated MW

28kDa/31kDa/51kDa/54kDa/58kDa

Category

Primary antibody

Applications

IF

Cross-Reactivity

Human, Mouse, Rat

Recommended Dilutions

IF 1:50 - 1:200

Background

This gene encodes a protein which is a member of the cysteine-aspartic acid protease (caspase) family. Sequential activation of caspases plays a central role in the execution-phase of cell apoptosis. Caspases exist as inactive proenzymes which undergo proteolytic processing at conserved aspartic residues to produce two subunits, large and small, that dimerize to form the active enzyme. This protein cleaves and activates caspases 3 and 7, and the protein itself is processed by caspase 8. Mutations in this gene are associated with type IIA autoimmune lymphoproliferative syndrome, non-Hodgkin lymphoma and gastric cancer. Alternatively spliced transcript variants encoding different isoforms have been described for this gene.

Immunogen Information

Gene ID

843

Swiss Prot

Q92851

Immunogen

Recombinant fusion protein containing a sequence corresponding to amino acids 230-505 of human Caspase-10 (NP_116759.2).

Synonyms

CASP10;ALPS2;FLICE2;MCH4;caspase-10

Contact

Product Information

Source

Rabbit

Isotype

IgG

Purification

Affinity purification

Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.

Validation Data

Immunofluorescence analysis of HeLa cells using Caspase-10 Polyclonal Antibody (A0169) at dilution of 1:100 (40x lens).
Blue: DAPI for nuclear staining.
