A11196

Leader in Biomolecular Solutions for Life Science

Complement C3 Rabbit mAb

Catalog No.: A11196 Recombinant

Basic Information

Observed MW 115kDa/187kDa

Calculated MW 187kDa

Category SMab Recombinant Monoclonal Antibody

Applications WB,ELISA

Cross-Reactivity Human

CloneNo number ARC0541

Background

Complement component C3 plays a central role in the activation of complement system. Its activation is required for both classical and alternative complement activation pathways. The encoded preproprotein is proteolytically processed to generate alpha and beta subunits that form the mature protein, which is then further processed to generate numerous peptide products. The C3a peptide, also known as the C3a anaphylatoxin, modulates inflammation and possesses antimicrobial activity. Mutations in this gene are associated with atypical hemolytic uremic syndrome and age-related macular degeneration in human patients.

Recommended Dilutions

Immunogen Information

WB

1:500 - 1:1000

Gene ID 718 Swiss Prot P01024

Immunogen

A synthetic peptide corresponding to a sequence within amino acids 1200-1300 of human Complement Complement C3 (P01024).

Synonyms

ASP; C3a; C3b; AHUS5; ARMD9; CPAMD1; HEL-S-62p; Complement C3

Product Information

lsotype IgG Purification Affinity purification

Storage

Source

Rabbit

Store at -20°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide,0.05% BSA,50% glycerol,pH7.3.

Validation Data
