Leader in Biomolecular Solutions for Life Science

## AGTR2 Rabbit pAb

Catalog No.: A16341 **1 Publications**

### Basic Information

---

#### Observed MW

Refer to figures

#### Calculated MW

41kDa

#### Category

Polyclonal Antibody

#### Applications

WB, ELISA

#### Cross-Reactivity

Mouse

### Background

---

The protein encoded by this gene belongs to the G-protein coupled receptor 1 family, and functions as a receptor for angiotensin II. It is an integral membrane protein that is highly expressed in fetus and in neonates, but scantily in adult tissues, except brain, adrenal medulla, and atretic ovary. This receptor has been shown to mediate programmed cell death and this apoptotic function may play an important role in developmental biology and pathophysiology. Mutations in this gene are been associated with X-linked cognitive disability. Severe Acute Respiratory Syndrome Coronavirus (SARS-CoV) and SARS-CoV-2 infection results in down-regulation of angiotensin converting enzyme-2 (ACE2) receptors, the effects of which, triggers serious inflammatory lesions in the tissues involved, primarily in the lungs. The inflammatory reaction appears to be mediated by angiotensin II derivatives, including the angiotensin AT2 receptor which has been found to be upregulated in bronchoalveolar lavage samples from Coronavirus disease 2019 (COVID19) patients.

### Recommended Dilutions

---

WB 1:500 - 1:2000

### Immunogen Information

---

#### Gene ID

186

#### Swiss Prot

P50052

#### Immunogen

A synthetic peptide corresponding to a sequence within amino acids 250-350 of human AGTR2 (NP\_000677.2).

#### Synonyms

AT2; ATGR2; MRX88; AGTR2

### Contact

---

[www.abclonal.com](http://www.abclonal.com)

### Product Information

---

#### Source

Rabbit

#### Isotype

IgG

#### Purification

Affinity purification

#### Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.01% thimerosal, 50% glycerol, pH7.3.
