# ABclonal® www.abclonal.com

# **BBS5 Rabbit pAb**

Catalog No.: A5142

# **Basic Information**

# **Observed MW**

Refer to figures

### **Calculated MW**

39kDa

# Category

Primary antibody

# **Applications**

WB

#### **Cross-Reactivity**

Human

# **Background**

This gene encodes a protein that has been directly linked to Bardet-Biedl syndrome. The primary features of this syndrome include retinal dystrophy, obesity, polydactyly, renal abnormalities and learning disabilities. Experimentation in non-human eukaryotes suggests that this gene is expressed in ciliated cells and that it is required for the formation of cilia. Alternate transcriptional splice variants have been observed but have not been fully characterized.

# **Recommended Dilutions**

WB

1:500 - 1:1000

# **Immunogen Information**

**Gene ID** 129880

**Swiss Prot** 

Q8N3I7

#### **Immunogen**

A synthetic Peptide of human BBS5

#### **Synonyms**

BBS5

## **Product Information**

**Source** Rabbit Isotype

IgG

**Purification** 

Affinity purification

# Storage

Store at 4°C. Avoid freeze / thaw cycles. Buffer: PBS with 0.02% sodium azide, pH7.3.
