

A8589

Leader in Biomolecular Solutions for Life Science

# ABCG5 Rabbit pAb

Catalog No.: A8589 **1 Publications**

## Basic Information

### Observed MW

80kDa

### Calculated MW

73kDa

### Category

Polyclonal Antibody

### Applications

WB,ELISA

### Cross-Reactivity

Human

## Background

The protein encoded by this gene is a member of the superfamily of ATP-binding cassette (ABC) transporters. ABC proteins transport various molecules across extra- and intra-cellular membranes. ABC genes are divided into seven distinct subfamilies (ABC1, MDR/TAP, MRP, ALD, OABP, GCN20, White). This protein is a member of the White subfamily. The protein encoded by this gene functions as a half-transporter to limit intestinal absorption and promote biliary excretion of sterols. It is expressed in a tissue-specific manner in the liver, colon, and intestine. This gene is tandemly arrayed on chromosome 2, in a head-to-head orientation with family member ABCG8. Mutations in this gene may contribute to sterol accumulation and atherosclerosis, and have been observed in patients with sitosterolemia.

## Recommended Dilutions

WB 1:500 - 1:2000

## Immunogen Information

### Gene ID

64240

### Swiss Prot

Q9H222

### Immunogen

A synthetic peptide corresponding to a sequence within amino acids 350-450 of human ABCG5 (NP\_071881.1).

### Synonyms

STSL; STSL2; ABCG5

## Contact

[www.abclonal.com](http://www.abclonal.com)

## Product Information

### Source

Rabbit

### Isotype

IgG

### Purification

Affinity purification

### Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.

## Validation Data

---

Western blot analysis of extracts of HL-60 cells, using ABCG5 antibody (A8589) at 1:1000 dilution.  
Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) (AS014) at 1:10000 dilution.  
Lysates/proteins: 25 $\mu$ g per lane.  
Blocking buffer: 3% nonfat dry milk in TBST.  
Detection: ECL Basic Kit (RM00020).  
Exposure time: 30s.
