

# Phospho-δ-Catenin/p120 Catenin-S252 Rabbit pAb

Catalog No.: AP1078

# **Basic Information**

## **Observed MW**

Refer to figures

### **Calculated MW**

108kDa

### Category

Primary antibody

### **Applications**

ELISA,WB

#### **Cross-Reactivity**

Human

# **Background**

This gene encodes a member of the Armadillo protein family, which function in adhesion between cells and signal transduction. Multiple translation initiation codons and alternative splicing result in many different isoforms being translated. Not all of the full-length natures of the described transcript variants have been determined. Readthrough transcription also exists between this gene and the neighboring upstream thioredoxin-related transmembrane protein 2 (TMX2) gene.
