# ABclonal www.abclonal.com

## NRF1 Rabbit pAb

Catalog No.: A5547 8 Publications

## **Basic Information**

## **Observed MW**

70kDa

#### **Calculated MW**

54kDa

#### Category

Primary antibody

## **Applications**

ELISA, WB, ChIP

## **Cross-Reactivity**

Human, Mouse, Rat

## **Background**

This gene encodes a protein that homodimerizes and functions as a transcription factor which activates the expression of some key metabolic genes regulating cellular growth and nuclear genes required for respiration, heme biosynthesis, and mitochondrial DNA transcription and replication. The protein has also been associated with the regulation of neurite outgrowth. Alternative splicing results in multiple transcript variants. Confusion has occurred in bibliographic databases due to the shared symbol of NRF1 for this gene and for "nuclear factor (erythroid-derived 2)-like 1" which has an official symbol of NFE2L1.

## **Recommended Dilutions**

**WB** 1:500 - 1:1000

**ChIP** 5μg antibody for 10μg-15μg of

Chromatin

## **Immunogen Information**

**Gene ID**Swiss Prot
4899
Q16656

## Immunogen

Recombinant fusion protein containing a sequence corresponding to amino acids 240-449 of human NRF1 (NP\_001035199.1).

### **Synonyms**

ALPHA-PAL; NRF1

## Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.02% sodium azide,50% glycerol,pH7.3.

Western blot analysis of various lysates using NRF1 Rabbit pAb (A5547) at 1:1000 dilution.

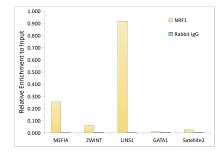

Secondary antibody: HRP Goat Anti-Rabbit IgG (H+L) (AS014) at 1:10000 dilution.

Lysates/proteins: 25µg per lane.

Blocking buffer: 3% nonfat dry milk in TBST.

Detection: ECL Basic Kit (RM00020).

Exposure time: 5s.

Chromatin immunoprecipitation analysis of extracts of HepG2 cells, using NRF1 antibody (A5547) and rabbit IgG.The amount of immunoprecipitated DNA was checked by quantitative PCR. Histogram was constructed by the ratios of the immunoprecipitated DNA to the input.
